

To set trusted sites via GPO for Progressive DNC

- Open the **Group Policy Management Editor**.
- Go to **User Configuration > Policies > Administrative Templates > Windows Components > Internet Explorer > Internet Control Panel > Security Page**.
- Select the **Site to Zone Assignment List**.
- Select **Enabled** and click **Show** to edit the list. For “Value”, enter 2 (which means trusted site) and for “Value Name” enter the *name of the server*.
- Click **OK**.
- Click **Apply** and **OK**.
- Thingworx is now configured to see the server as a trusted site.
